

# KENTEC COMPOSITES

## Fiberglass Ladder

### Corrosion Resistant Ladders

Manufactured with pultruded profiles, vertical ladders are suitable for any application in corrosive environments.

### Mechanical Excellence

Kentec's fiberglass safety ladders meet and or exceed OSHA requirements. Serrated fluted rungs are incorporated for a slip resistant foothold.

### Easy to use

Supplied in custom lengths, their light weight structure enhances ease of installation.

### Economical and durable

With a cost comparable to aluminum ladders, fiberglass ladders offer additional distinctive features such as:

- Resistant to impact (No permanent deformation due to temporary overloading or impact).
- Low or no maintenance (maintenance free over the years, no painting required and no corrosion).
- Fiberglass Safety cages are pre-drilled for a rapid field installation.
